

The New Osterville Village Library Update

April 2011

Steel and Daffodils are Sprouting!

Library Gets a Police Escort

State Police cars escorted the wide-load of steel for the framing of the library as it rolled into the village. The 60' yellow crane being used to move the steel can be seen from most Osterville locations! After months of site preparation and the foundation being poured, this next stage should have fast visible results! Stop by and watch **your** new library being built!

Help Your Osterville Village Library Reach the Fund Raising Goal!

\$5.5 Million Goal

\$4.2 Million Raised
